Title: Annual Report for District and Fresno County Summary - Williams Legislation - Written Report

---

CONTACT: Marc Hammack

FOR INFORMATION: **FOR ACTION:** November 18, 2026

RECOMMENDATION:
The annual report for both Clovis Unified School District and Fresno County Williams visitation is provided for Governing Board review.

DISCUSSION:
As a result of the 2004 settlement of Eliezer Williams, et al. vs the State of California, et al. (Williams), a package of legislation often referred to as the "Williams legislation" was passed to ensure that all students have access to a quality education. As a result, all schools are required to ensure that every student has access to textbooks and safe and clean school facilities.

Additionally, county offices of education are required to annually monitor identified schools to verify textbook sufficiency, safe and clean school facilities, and accurate School Accountability Report Card (SARC) reporting, and annually report to districts a summary of the findings.

Key findings and overall compliance for Clovis Unified and Fresno County are:

- Instructional materials: All schools have sufficient, standards-aligned textbooks and resources.
- Facilities: All facilities are in good repair, no emergency conditions identified.
- SARCs: Accurate reporting across all districts.
- Teacher misassignments/vacancies: Not included in Williams reviews; tracked separately by the California Department of Education (CDE).

2026-27 Williams Monitoring District Summary Report
Clovis Unified School District

Introduction

The Fresno County Superintendent of Schools (FCSS) office annually monitors identified schools as required by the Williams legislation. FCSS is committed to partnering with our districts and schools to ensure that every student has access to textbooks, safe and clean facilities, and qualified teachers.

Background

As a result of the 2004 settlement of *Eliezer Williams, et al. vs the State of California, et al. (Williams)*, a package of legislation often referred to as the Williams legislation was passed to ensure that all students had access to a quality education. As a result, all schools are required to ensure that every student has access to textbooks and safe and clean school facilities.

Additionally, county offices of education are required to annually monitor identified schools to verify textbook sufficiency, safe and clean school facilities, and accurate SARC reporting and annually report to districts a summary of the findings.

Clovis Unified Summary of Findings

The Williams Monitoring District Summary Report provides a summary of the findings from all visits conducted at Clovis Unified for the Williams monitoring period. This report includes findings from 13 schools for instructional materials, facilities, and SARC reporting.

Facilities

FCSS conducted inspections of 13 school facilities in Clovis Unified.

The Facility Inspection Tool (FIT) was used to determine the condition of the school facilities. School facilities ratings are calculated as a percentage of deficiencies findings and assigned a “Good” or “Exemplary” rating.

Schools with a “Fair” or “Poor” rating have an opportunity to correct the deficiencies and have a follow-up inspection. The results of the follow-up inspection are reported in the summary of findings.

Fresno County Office of Education
1111 Van Ness Avenue • Fresno, California 93721
(559) 265-3000 • www.fcoe.org

Any school with an "emergency" condition-a deficiency that poses a threat to the health or safety of pupils and staff while at the school—must be corrected immediately and a follow-up inspection is required. The revised rating is reflected in the summary of findings.

- 10 schools in "Exemplary" condition
- 3 school in "Good" condition
- 0 schools in "Fair" condition
- 0 schools in "Poor" condition

Textbook Sufficiency

FCSS reviewed 13 schools for textbook sufficiency in English-language arts, English-language development (ELD), history-social science, math, science, world (foreign) language, and health education. Science laboratory equipment sufficiency for grades 9-12 was also reviewed.

13 schools of 13 schools (100%) reviewed were found to meet textbook sufficiency standards.

School Accountability Report Card (SARC)

Schools are required to annually update their School Accountability Report Card (SARC). William's legislation requires schools to report accurately on any maintenance to ensure "good repair" of the facilities and on the sufficiency of textbooks and instructional materials.

As required by William's legislation, FCSS reviewed all SARCs to verify that schools provided accurate reporting in the areas of textbook sufficiency and facilities maintenance for the SARC published during the 2025-26 school year.

Williams Settlement Legislation

Annual Report for Fresno County Schools: 2026-2027 Academic Year (Monitored Fall 2026)

This report summarizes the results of the 2026 Williams Settlement site visits and documentation reviews conducted across Fresno County schools identified by the California State Superintendent of Public Instruction.

Pursuant to Education Code Section 1240 (2)(A)(i), the County Superintendent of Schools is required to report the results of these annual reviews to the governing boards of all school districts under the county's jurisdiction. This submission ensures transparency and public accountability regarding the condition of instructional materials, facilities, and school reporting accuracy.

The annual Williams monitoring process focuses on three mandated areas:

1. Instructional Materials
2. School Facilities
3. School Accountability Report Cards (SARCs)

Teacher misassignments and vacancies are not part of the Williams site review process. These data are collected and reported separately by the California Department of Education (CDE) through the annual Teacher Misassignment & Monitoring Outcome reporting system.

Instructional Materials

- All schools reviewed in Fall 2026 were found to have sufficient textbooks and instructional materials in the four core subject areas: English Language Arts, Mathematics, Science, and History–Social Science.
- Reviews also confirmed sufficient materials in foreign language and health for middle and high schools, and laboratory science equipment for grades 9–12.
- "Sufficient" means every pupil, including English Learners, had access to a standards-aligned textbook or instructional material for classroom and home use.
- No deficiencies were identified in any of the classrooms visited throughout Fresno County's participating districts.

School Facilities

- Facility inspections determine whether campuses were in "good repair" and whether any posed "emergency conditions," defined as threats to the health or safety of students or staff.
- All schools reviewed were rated either good or exemplary, and no emergency deficiencies were identified at any site.
- Minor repair items observed (e.g., flooring, lighting, or HVAC adjustments) were routine maintenance issues and were addressed.

School Accountability Report Cards (SARCs)

- SARCs dated February 1, 2026, were reviewed for accuracy in reporting on instructional materials sufficiency and facility conditions.
- All schools across the county reported no discrepancies between site visit findings and their published SARCs.
- The results confirm that districts are maintaining accurate, transparent public reporting as required by state law.

Teacher Misassignments and Vacancies (Reported Separately)

While referenced in the Williams Settlement legislation, these data are not collected through the Williams review visits. Instead, the CDE's teacher Misassignment & Monitoring Outcome reporting system verifies that teachers hold appropriate credentials and authorizations, including those required for serving English Learners, and that all classes are staffed with permanent instructors beyond the first 20 days of the school year.

Key Findings and Overall Compliance

- Instructional Materials: All schools met sufficiency requirements; no shortages were identified.
- Facilities: All campuses rated Good or Exemplary; no emergency conditions found.
- SARCs: Fully accurate and compliant with state reporting standards.
- Teacher Misassignments/Vacancies: Not part of the Williams review; reported separately through CDE monitoring.

The 2026 Williams Settlement monitoring demonstrates full compliance by Fresno County schools in all reviewed areas. Students have equitable access to instructional materials, learn in safe and well-maintained facilities, and are represented accurately through publicly reported SARCs. Staffing compliance is verified through CDE's statewide teacher assignment monitoring process.

These results reflect Fresno County's ongoing commitment to upholding educational equity, safety, and transparency for all students and school communities.

Title: Updated School Plans for Student Achievement and Categorical Budgets for Title I Schools for 2026-27

CONTACT: Marc Hammack

FOR INFORMATION: October 28, 2026 **FOR ACTION:** November 18, 2026

RECOMMENDATION:
Authorize the Superintendent or designee to approve updated School Plans for Student Achievement (SPSAs) and updated categorical budgets for Title I schools for the 2026-27 school year due to an increase in Title I funding and authorize each school to implement its categorical programs.

DISCUSSION:
An increase in Title I funding by the State resulted in a substantial increase in Title I school site allocations. Current Title I schools have updated their SPSAs in collaboration with their School Site Council (SSC) to create an updated school plan that supports the academic needs of their students.

The purpose of the SPSA is to create a cycle of continuous improvement of student academic performance, as measured by State and District assessments. The goal is for all students to illustrate growth and achieve at rigorous levels.

Annually, Clovis Unified schools work in collaboration with their SSC and English Language Advisory Committees (ELAC) to develop their school site SPSA. These groups of parents and school staff collect and analyze students' performance data, set priorities for program improvement, use rigorous research-based strategies, conduct on-going monitoring of results, and review budgets. SPSAs are approved annually by the site's SSC in the spring and then reviewed and approved by the CUSD Governing Board in May/June of each school year.

The 2026-27 SPSA is based on the State's funding allocations. A copy of each school's SPSA is currently available to interested parties for review at the school site, and upon approval, will be posted to the CUSD website.

FISCAL IMPACT:
State and federal funding allocations are already included in the adopted 2026-27 budget.

Title: Proposition 2 Career Technical Education Facilities Program Grant Application

---

CONTACT: Marc Hammack

FOR INFORMATION: October 28, 2026 **FOR ACTION:** November 18, 2026

RECOMMENDATION:
Approve the District's Proposition 2 Career Technical Education Facilities Program (CTEFP) grant application for Clovis South High School's Financial Services Career Technical Education (CTE) Program, as submitted.

DISCUSSION:
In January 2026, the State Allocation Board approved $300 million for the CTEFP funding cycle. In the past, all five of our existing comprehensive high schools have been awarded a portion of these funds to support our CTE programs. This year, Clovis South High School will apply for the current round of grant monies. Applications are due December 1, 2026. CTEFP applicants must provide a matching contribution at least equal to the State grant. All applicants must have an active Career Technical Advisory Committee.

CTEFP allocates funds to qualifying school districts and joint powers authorities that have a need for the construction of new facilities, modernization or reconfiguration of existing facilities, and/or the purchase of equipment in accordance with Education Code 17078.72. The Clovis Unified application will be for equipment, infrastructure, and a construction project for the CTE Financial Services classroom and bank branch at Clovis South High School.

School	Industry Sector	Pathway
Clovis South High School	Business and Finance	Financial Services

FISCAL IMPACT:
The overall fiscal impact depends on the final grant award and support from our banking partner. If awarded the maximum amount of $3 million, the District will be required to provide a 1:1 matching contribution.

The District's Board appoints two Board members to the CSBA Delegate Assembly, Subregion 10-B. Board Member Yolanda Moore will continue as a Board member appointee to the CSBA Delegate Assembly, Subregion 10-B. Her two-year term is April 1, 2026, through March 31, 2028.

Title: Pre-Construction Management Services for Various Projects

---

CONTACT: Michael Johnston

FOR INFORMATION: November 18, 2026 **FOR ACTION:** December 11, 2026

RECOMMENDATION:
Authorize the Superintendent or designee to enter into a pre-construction management service agreement for the maintenance project at Lamonica Stadium and modernization project for Tarpey Elementary School.

DISCUSSION:
It is recommended that the District enter into an agreement with Bush Construction to complete pre-construction services and ultimately construct the maintenance/modernization projects through Construction Management Multiple Prime, as authorized in Board Policy No. 7140.

The first part of the process is a pre-construction agreement that specifies the scope of work up to the bidding process. Generally, this contract specifies that the firm will evaluate the project for constructability, work with the architect on design, conduct value engineering, provide a detailed schedule and cost estimate, and plan for the bidding process in coordination with the District's construction staff. The fee is based on a .25% of estimated construction costs.

Site	Contractor	Total Project Budget	Estimated Construction Cost	Pre-Construction Fee
Lamonica Stadium	Bush Construction	$5,765,000	$4,000,000	$10,000
Tarpey Elem Mod	Bush Construction	$5,500,000	$3,900,000	$9,750

RECOMMENDATION:
Adopt Resolution No. 4121 and accept the 2025-26 Developer Impact Fee Annual and Five-Year Report, as submitted.

DISCUSSION:
Government Code sections 66001 and 66006 require school districts to provide an annual and five-year accounting report regarding the collection and expenditure of developer fees. This report provides an overview of the school facility fee program, including the purpose of the school facility fee and the reasonable relationship between the fee and the purpose for which it is charged.

The report also provides a summary of developer fee income and expenditures for the applicable reporting periods, including the types and amounts of fees collected by type of construction. Additionally, the report identifies the projects for which developer fee funds are intended to be used, any incomplete projects, and any interfund loans or refunds made during the reporting periods.

The Resolution will be included in the Board members' meeting materials for the December 11, 2026, Governing Board meeting.

The Developer Fee Report will be made available to the public on November 25, 2026, 15 days prior to the December 11, 2026, Governing Board meeting, and can be accessed at https://www.cusd.com/developer-fees at that time.

Title: Resolution No. 4122 - Withdrawal from the Schools Excess Liability Fund Joint Powers Authority and Excess Risk Pool

---

CONTACT: Michael Johnston

FOR INFORMATION: November 18, 2026 **FOR ACTION:** December 11, 2026

RECOMMENDATION:
Adopt Resolution No. 4122 serving as a Resolution of Withdrawal from the Schools Excess Liability Fund (SELF), effective July 1, 2027, and authorize staff to submit the resolution and written notice of withdrawal to SELF no later than December 31, 2026.

DISCUSSION:
Clovis Unified School District (CUSD) is currently a member of the Alliance of Schools for Cooperative Insurance Programs (ASCIP), a joint powers authority and risk-sharing pool serving public educational agencies. ASCIP provides the District with liability coverage, including coverage for childhood sexual assault claims.

The District is also a member of SELF, a separate joint powers authority that has historically provided excess liability coverage to participating ASCIP members.

Beginning with the 2026-27 fiscal year, ASCIP enhanced its liability program to provide participating members with up to $50 million in liability coverage, including coverage for childhood sexual assault claims. This enhanced program allows participating districts to obtain both primary and excess liability coverage through ASCIP under a single, coordinated program.

In order for the District to withdraw from SELF and transition to the alternative excess liability program effective July 1, 2027, the District must comply with the withdrawal requirements of the SELF Joint Powers Agreement. These requirements include adoption by the Governing Board of a formal Resolution of Withdrawal, submission of written notice of withdrawal to SELF together with the adopted Resolution, and delivery of those documents to SELF on or before the close of business on December 31, 2026.

If these requirements are fulfilled in a timely manner, the District's withdrawal from SELF will become effective July 1, 2027, and the District will effectively begin using the ASCIP alternative excess liability program beginning with the 2027-28 school year.

FISCAL IMPACT:
Rates for the 2027-28 school year have not been set at this time. The 2027-28 adopted budget will include any additional costs, currently estimated at approximately $115,000, however, this results in additional coverage for general liability and childhood sexual assault claims.
